PASCAL TRIANGLE

NAME : SOHAM SACHIN KULKARNI
PRN : B25ET1170
BATCH : B3

```
#include <iostream>
using namespace std;

void printPascalTriangle(int rows) {
    for (int i = 0; i < rows; i++) {
        // Print spaces for alignment
        for (int space = 0; space < rows - i - 1; space++) {
            cout << " ";
        }

        long long value = 1; // First element of every row is always 1

        for (int j = 0; j <= i; j++) {
            cout << value << " ";

            // Formula to calculate the next value in the current row
            value = value * (i - j) / (j + 1);
        }
        cout << endl;
    }
}

int main() {
    int rows;
    cout << "Enter the number of rows: ";
    cin >> rows;

    printPascalTriangle(rows);
```

```
    return 0;
}
```
